

BID PROPOSAL

BID SCHEDULES

Bidder agrees to perform all the Work described in the Contract Documents for the following lump sum. Bidder is advised to carefully review all sections of the Plans and Specifications in order to completely understand the Work and all constraints including the schedule and material requirements.

The Work includes installation of sewer gravity system components and associated tasks. Specific tasks are outlined in the Contract Documents and generally include, but are not limited to, installation and testing of sewer mains, service connections, manholes, junction box, and site improvements, and associated work for the Owner's sewer system.

Lump Sum Bid items shall be comprehensive and shall include all work associated with the project.

The following tables have been provided for the Bidder's convenience to assist Bidder in quantifying the major components of the Work and shall in no way be interpreted to be comprehensive.
